### Minimal oral/inhaled sedation training with Dr. Alan Milnes, Dr. Terry Abel and Michael Dare

#### Mastering Minimal Oral/Inhaled Sedation June 6-8, 2020

This course includes hands-on administration of nitrous oxide and minimal oral sedation using various techniques. It is designed to meet the criteria, standards and guidelines of the College of Dental Surgeons of British Columbia, College of Dental Surgeons of Saskatchewan, Manitoba Dental Association, Royal College of Dental Surgeons of Ontario, the American Dental Association and the Association of the Canadian Faculties of Dentistry for the teaching and administration of nitrous-oxide and minimum oral sedation. For a nitrous oxide/oxygen permit, the participant is required to attend the first two days. For an inhaled and minimal oral combined sedation permit, the participant must also attend the third day. Dentists are the only participants eligible for certification in this course. Prerequisites: Current BLS CPR Certification

#### Topics:

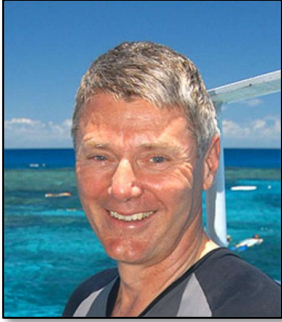

Clinically relevant pharmacology  
Nitrous oxide equipment and administration  
Patient monitoring during sedation  
Minimal oral/inhaled sedation protocols  
Pediatric patient considerations  
Preparing the practice for sedation dentistry

Respiratory physiology  
Patient assessment and screening  
Minimal sedation regulations in Canada  
Non-pharmacologic techniques for anxiolysis  
Responding to sedation emergencies

#### Why you should choose Dental Ed for your sedation training?

- ✓ Our faculty have expertise in all levels of sedation delivery. We understand the full sedation spectrum and teach the advantages and disadvantages of each level and route in our courses.
- ✓ We are expert educators and use multiple teaching modalities. We are interactive, have expertise in the topics we teach, and use fresh approaches to learning. We promise an educational experience that you will not forget.
- ✓ Our course includes information on all aspects of pediatric minimal sedation techniques from an expert in the field, Dr Alan Milnes. Alan will guide you through patient selection, family dynamics, and other topics specific to pedodontics. LA choices and methods to prevent LA toxicity are also discussed.
- ✓ Michael Dare has true expertise in managing medical emergencies with 30+ years of hands on ER experience. Michael teaches a variety of certifications in emergency care such as ACLS and PALS. You will learn current best practices in dealing with dental office emergencies during the course.

## Course Faculty

**Dr. Alan R. Milnes D.D.S., Dip. Paed., Ph.D., F.R.C.D.C. (Retired). Course Director.** Founding faculty member and instructor for American Academy of Pediatric Dentistry Course – “Contemporary Sedation of Children for the Dental Practice – Enteral and Parenteral Techniques”. Dr. Milnes has over 20 years’ experience delivering moderate multi-drug sedation to pediatric dental patients including the use of inhaled sedation. He received his dental training from the University of Toronto and completed a dental internship at Hospital for Sick Children, Toronto. He later went on to complete a Ph.D. in Oral Microbiology from the University of Manitoba. Alan was a certified specialist in Pediatric Dentistry and has just retired from his active sedation pediatrics practice in Kelowna, BC Canada.

**Dr. Terry B. Abel D.M.D.** Has provided sedation services for 22 years in his private comprehensive general dental practice, as well as assisted oral surgery in a hospital setting for 8 years and provided dental treatment under general anaesthesia at a private facility. Dr. Abel studied undergraduate Biochemistry at the University of British Columbia before entering the DMD program with honours, and has taken multiple courses in oral sedation, inhaled sedation, and intravenous sedation since graduation. Dr. Abel served for over 10 years as the Director of Dental Services at Medical Ministry International and has delivered dental care on 20 short term mission trips to Africa, South America, and Asia. Dr. Abel is also a Mentor at the Kois Center in Seattle, Washington.

**Michael Dare BKin, RN, ALS-Paramedic ACLS-IT, PALS-IT, ITLS-I, BLS-I.** Community-based clinician with a long history of assisting in the provision of anaesthesia and sedation services in both the medical and dental professions. Member of the American Dental Society of Anesthesiology Michael has a diverse background in teaching and clinical practice involving both adult and pediatric patients. His clinical expertise spans 30 years and includes most areas of critical care nursing, air medical transport as well as pre-hospital advanced life support as a paramedic. He is the CEO of Dental Ed and is passionate about adult learning.

**DISCLAIMER:** Dental education institutions have an obligation to disseminate new knowledge related to dental practice. Some presentations may include controversial materials or commercial references. This does not imply endorsement of a philosophy, procedure or product by Dental Ed.
